BUSINESS

Taking care of your business.

Our proven security solutions are used in office buildings, universities, hospitals and factories throughout New Zealand

From large organisations to small companies Armstrong Security brings you the smartest and safest security solutions in the business. Our nationwide team has extensive experience in recommending and installing some of the world's most advanced security systems.

ACCESS CONTROL SYSTEMS

Armstrong Security puts complete control in your hands, allowing you to manage and monitor staff and visitor movement throughout your building.

- **FULLY FEATURED ACCESS CONTROL SYSTEMS**
- **COMPLETE AUDIT CONTROL OPTION AVAILABLE**
- **VISITOR MANAGEMENT SYSTEMS**
- **CONTROL PANELS AND HARDWARE**
- **KEYPADS AND READERS**

MASTER KEY SYSTEMS

We lead the industry in Master Key Systems that allows you to control access across large and multiple sites for any number of users and doors.

ARMSTRONG KEY MANAGEMENT SOFTWARE

This simple to use computer programme manages all aspects of key distribution. At a touch of a button you'll know exactly who has which key and which keys are due to be returned.

THE ARMSTRONG SECURITY CHECK-UP

Just call us and we'll be pleased to visit your business or organisation and make recommendations regarding the right security system for you.

We'll look at how many people enter and leave different areas and determine the exactly the type of alarm detector you require. We can even recommend a monitoring schedule that takes accounts of staff and visitor arrival and departures and gives you access to an audit trail of entry and exit through the building.
